VERSION WITH MARKINGS TO SHOW CHANGES MADE
IN THE SPECIFICATION

1. Please amend paragraph [0001] on page 1, from line 4 through 7, as follows:

[0001] This application makes reference to, incorporates the same herein, and claims all benefits accruing under 35 U.S.C. §119 from an application entitled [*System and Method for Real-time Device Driver Error Handling*] *Auto-diagnosis Apparatus and Method of Device Driver* earlier filed in the Korean Industrial Property Office on 17 August 2000, and there duly assigned Serial No. 2000-47588 by that Office.

2. Please amend paragraph [0032] on page 10, from line 15 through 18, as follows:

[0032] As described above, since the files and system information required for the diagnosis of the device driver are located on a predetermined location as shown in [Fig. 6] Figs. 4A to 4I, the monitoring file can diagnose the device driver using the file and system information, whereupon driver error handling program can correct the device driver errors automatically.
